Bacon Wrapped Water Chestnuts  
Fried Zucchini  
Cold Canapés  
Assorted Cheese with Crackers  
Carving Station: Turkey/Ham  
Sweet Table  
Coffee

## NEW BEGINNINGS

Each chapter that is ending  
    Leads us to a new beginning.  
The past that we are leaving  
    Means a future we are winning.

Each change that fills the present  
    Sets the stage for our tomorrows.  
And how we meet each challenge  
    Helps determine joy or sorrow.

In every new beginning  
    Spirit plays a vital part.  
We must approach tomorrow  
    With a strong and steady heart.

So as we turn the corner  
    Let's all apprehension shed.  
And fill our hearts with confidence  
    As we proceed ahead.

Here's to your new  
    Beginning . . .

*Presents*

***THE  
HAWKADEMY AWARDS***

The Seville

Thursday, May 1, 2003

6:00 p.m. - 10:00 p.m.

Dee Moyer

**Career background:**

During the fall of 1980 Dee joined the staff of HEHS as a cashier in Faculty Services and the typist for the Art Department and the Foreign Language Department. After 6 years the position of secretary to the Director of Student Services opened and she was accepted into that position. She was the secretary to Mr. Jerry Cairns, Ms. Joyce Myers, Mr. Gregg Schrage, Mr. Dan Yokas and Ms. Julie Lockett as well as typing for the counselors and the psychologists and social workers.

**A highlight:**

The ability to work with a group of teachers, staff and administrators that work together as a family to provide services for the students at HEHS. The faculty and staff at Hoffman are always friendly and supportive and provide a superior working environment. I was given a dinner upon my retirement that made me feel truly appreciated and that I would be missed. I can't think of a better way to retire.

**Miss the most?**

All of my friends at HEHS and I doubt that I will ever be able to duplicate this work environment in any of my future endeavors. I also will miss the supportive environment provided by the district office personnel and the staff I dealt with at all the other buildings.

**Miss the least?**

The cold in the winter and heat in the summer. I know a large building like Hoffman is a challenge to keep comfortable, but in my old age I cannot say I will miss that.

**Words of wisdom:**

I would say keep smiling. Be grateful for your health and remember what is important. The rest will take care of itself.

**Retirement plans:**

My husband and I plan to travel as often as possible and to enjoy our family. I do plan on returning to work part-time as we have 7 grandchildren who we enjoy spoiling.

Cassie Van Duys

**Career background:**

Cassie spent 23 1/3 years in the District. She was first a typist in Faculty Service, then the second voice of Hoffman - Switchboard Operator, then the Cashier. She was on several committees appointed by then Activity Director Terri Busch.

**A highlight:**

Meeting Walter Payton and yes - Barbara Radous - I did know who he was!

**Miss the most?**

All the lovely people I have worked with all these years and all the friends I have made.

**Miss the least?**

Not having to get up early every day, but most of all, not having to show up at work on snow days when school was called off, but 12 month employees still had to come to work.

**Words of wisdom:**

Plan ahead - retirement comes quicker than you think.

**Retirement plans:**

No immediate plans. I guess I'll get a little part-time job a few days a week to keep me busy and in touch with the outside world. And, of course, I still hear all the news going on at Hoffman from my husband.

Chuck Weller

**Career background:**

Chuck began his career in 1979 as a night foreman. In 1980 Chuck served as the acting building and grounds manager and became the building and grounds manager in 1981. Believe it or not, Chuck softened in his later years.

**Words of wisdom:**

Don't ever do anything in the building without a work order.

**Retirement plans:**

Chuck has retired in Sun City, Arizona where he and his wife Mary Lou enjoy their incredible patio view. Chuck has actually enjoyed trimming cactus as opposed to hedges. He's living close to his parents which adds to the joy of his retirement. While he misses his two daughters and grandchildren, he's only a short airplane ride away. The Arizona air has been good for his health. Terri wonders what Chuck would do if we all showed up at his place for a drink?!?!

Sandy Dowty

### **Career background:**

Sandy spent 11 1/2 years at the Carmel-Clay schools, Carmel, Indiana where she taught Speech, Freshman English and sponsored the Drama Club. She spent 1 1/2 years at West Springfield H.S. in Fairfax City schools, Va. where she taught Theatre I, Sophomore English and assisted with the musical. She has been at HEHS for the past 19 years teaching English Lit Survey, Accelerated Juniors among other things! She was the Thespian Sponsor, Musical Tech Director and Madrigal Assistant.

### **A highlight:**

There have been way too many to list!

### **Miss the most?**

The students, my incredible colleagues in the English Department, Saturday tech days, the auditorium (even the immovable black wall), the students, the light that goes on in students' eyes when their attention is riveted, my cart, my techies.

### **Miss the least?**

Route 59 through Barrington, 5:00 a.m., a scene shop 1 floor above the stage and a stage with no garage door and no fly space, the auditorium sound system, not having a permanent classroom and having to move all my posters.

### **Words of wisdom:**

Common sense and a sense of humor are key elements to success.

### **Retirement plans:**

Golf with Paula Schofield, business travel with my husband, time in Indiana with family, and who knows - the possibilities are endless!

Kim Fischer

**Career background:**

Kim has taught in District 211 for 33 years - 5 years at Conant (1970-1975) and 28 years at HEHS. He has taught all levels of U.S. History, including ESL and AP, World Problems, Multicultural Perspectives, Civics and Senior Survey.

**A highlight:**

I lasted long enough to see five of my former students become faculty members at HEHS. Best case scenario: in some way I might have contributed to their desire to become teachers. Worst case scenario: I did not do anything to discourage them.

**Miss the most?**

Everyone's appreciation of my sense of humor and how easy it was to make people laugh... or groan.

**Miss the least?**

The winter days when you get up in the dark, arrive at school in the dark, leave school in the dark and get home in the dark.

Enabling parents.

**Words of wisdom:**

There is no mystery to history ... or Spanish, or Geometry, or Advanced Autos, or Chemistry, or Health, or 3-D Design, or Expo Comp, or Accounting, or Foods, or Orchestra ... everything's connected.

**Retirement plans:**

Getting healthy. Finding some kind of job, paid or volunteer, with a minor league baseball team. Acquiring ... and learning how to use ... a cell phone. Minimizing the occasions on which I have to arise in the morning in darkness.

Gary Anderson

### **Career Background:**

Gary began his teaching career in January, 1968 in Byron, Illinois, a small town near Rockford. There he taught language arts in the junior high, German in the high school, and directed the senior class play. In August of 1969 he joined the English Department of Conant High School. When Hoffman opened in 1973, he transferred as the English Department Chairman. Since then, he has also served as ticket manager, forensics coach, and National Honor Society adviser.

### **A highlight:**

I have three. First, I had the experience of building a new department in a brand new high school. Few teachers ever have this opportunity. Second was our change to block scheduling, another experience which few teachers ever enjoy. Probably the most memorable experience was when Hoffman became the first school in the district to win the National Award of Excellence. The staff chose me as the representative of the faculty to travel with Mr. Garber and Melissa DellaRinga, one of our students, to Washington to receive the award from President Reagan. To me, that was the epitome of Hawk Pride!

### **Miss the most?**

Of course, I'll miss all of the wonderful people I have worked with over the years. Most of all, I'll miss my colleagues and friends in the English Department. They have been the most supportive, creative, energetic, and professional staff a department chair could hope for. I am proud of each and every one of them, both past and present.

### **Miss the least?**

I won't miss grading all of those papers and the endless stream of deadlines. Ugh!

### **Words of wisdom?**

First, learn the difference between what is really important and what is not. In my early years I think that I spent too much time and energy struggling with issues that really did not matter much in the end. Experience teaches you to distinguish the difference between the trivial and the significant. Second, have fun while you're teaching. I've always said that there's no reason why we can't have a good time doing the work we love. My wish for you is that when you reach your retirement, you will feel as good about your career as I feel about mine.

### **Retirement plans:**

My wife, Maggie, and I will do some traveling. I am looking forward to spending more time with her, our three grown children and our five grandchildren, who are growing up so quickly.

Dennis Ferguson

**Career background:**

Dennis spent 5 years at Conant where he taught P.E. and Dr. Ed., and coached football and gymnastics. During his 30 years at HEHS he was Dept. Chair of Dr. Ed., coached football, basketball and XCountry, concessions manager, EAP coordinator and started the intramural program.

**A highlight:**

Surviving with my sanity after teaching Dr. Ed. for 35 years.

**Miss the most?**

Over the past 35 years, I have met some very special young adults and colleagues. I will miss the opportunity to meet more of them.

**Miss the least?**

Meetings, self-evaluations and bells.

**Words of wisdom:**

Persevere through all of those meetings, self-evaluations and bells.

**Retirement plans:**

My plans will be on hold until I see what the world situation is going to be. At this moment, the term "Man of Leisure" comes to mind.

Kathy Breault

### **Career background:**

Kathy spent 1 year teaching English at her alma mater St. Francis Academy in Joliet, IL. She also taught Reading for 1 year at Carl Sandburg Jr. High and English for 2 years at Sacred Heart of Mary H.S. in Rolling Meadows. She has been an English teacher at HEHS for 18 years and has been a Variety Show assistant.

### **A highlight:**

Teaching 5 of the 7 O'Neil's over my 18 years at HEHS, from 1985-1998 there were Breaults in 4 of the 5 211 schools (my husband, John at Fremd; my brother-in-law Joe at SHS; my 5 children at PHS; and me at HEHS). We only missed representation at Conant! Being asked to accompany Catherine Chan 2001 to the Top 25 Dinner.

### **Miss the most?**

My dear friends who have encouraged, inspired and been there for me. I love each of you! My students who have given me the opportunity to share what I so enjoy - the written word. I will miss their "Hi Mrs. Breault" each day. They have kept me young.

### **Miss the least?**

Most definitely it would be the 5 a.m. alarm on school days.

### **Words of wisdom:**

Be firm but friendly and fair. Love what you teach; it will help you convince students that education can be fun. Smile!

### **Retirement plans:**

My family has always been my pride and joy. I was home with my 5 children for 14 years before I returned to teaching. Now I look forward to "returning" to more time with my family: John, my husband who has already been retired for 2 years; my children who have settled from California to Washington, D.C; and my beautiful grandbabies, Arleigh, Christian and Zachary and one more in July. Their "Nanny" will soon be a regular visitor! Many travel plans are ahead. Other plans include: reading whatever I want, whenever I want; possibly volunteering at the Catholic elementary school that nurtured my children; joining a quilting circle to learn the art of this old sewing craft; and going to the Cubs home opening game in spring 2004.

Phyllis Bird

**Career background:**

Phyllis taught 3 years in Southfield, Michigan before coming to Hoffman. She has taught and sponsored DECA, Distributive Education Clubs of America, Business Internship Marketing Coordinator, Office Education Coordinator, Consumer Education, ESL Computer Literacy, Computer Literacy, Business Exploration and Introduction to Business.

**A highlight:**

My student placed first in the state and received national recognition at the national convention held in Washington for the Distributive Education Clubs of America. Returning students relating to me how they have benefited from my class.

**Miss the most?**

I will miss the interaction with the students and colleagues, the constant learning on the computer, teaching students that want to learn. I will miss the opportunities that Hoffman gave me to improve myself.

**Miss the least?**

The block system.

**Words of wisdom:**

Stand behind your values, never stop learning, always have a hard copy of your grades.

**Retirement plans:**

Devote my energies to some activity that equals my commitment to teaching.

**Jim Maloblocki**

**Career background:**

Jim spent 26 years at Hoffman in the Guidance Department where he worked with the Peer Mediation Mentor Program, Parent Training Groups and College Night Coordinator. Before coming to District 211 he spent 8 years in Catholic Education: 5 years in the classroom, 3 years at Carmel High School in Mundelein and tennis coach (aaarrgggh!!!).

**A highlight:**

Seeing Chris Pipilis win a full scholarship to John-Wales. Drinking lots of beer with my 6<sup>th</sup> graders at a class reunion (all were 21+) - Paczki Day.

**Miss the most?**

The checks, the social aspect of the job. We have a terrific guidance team. I will miss them.

**Miss the least?**

Schedule changes, counselor changes, stuff at night, stuff during the day, cranky people, cranky me.

**Words of wisdom:**

Put money away in a 403B. Get the Masters +30 ASAP. Go on an outward bound trek. You will never learn all the code numbers for block scheduling. They change every week.

**Retirement plans:**

I just bought a leather reclining "retirement" chair and Verilux reading light - so lots of reading. Golfing at Edisto, South Carolina. Seeing my wife off to work.

Jan Skiba

### **Career background:**

Jan has spent 21 years in Special Education – 6 1/2 years at HEHS as a SPED teacher assistant, 14 1/2 years as a SPED teacher including 11 years as Secondary Work Experience Program teacher and Pre-Vocational Coordinator. She was a sponsor of the Variety Show and SWEP Club. She also was a SPED teacher at Palatine, Schaumburg, LEAP and Miner LD Center.

### **A highlight:**

“Coming back” to HEHS to be a part of the Special Ed Dept. as a teacher! Watching our SWEP students win 1<sup>st</sup> place at the Amy Rudolph Basketball Tournament this year!

### **Miss the most?**

The family of HEHS – the wonderful people in the SPED Dept – the camaraderie, closeness, laughter, support, and more laughter. I am so proud to have been an HEHS family member!!

### **Miss the least?**

PAPERWORK!!

### **Words of wisdom:**

Hang in there! It only gets better.

### **Retirement plans:**

Experiencing, rather than wondering, what “Lady of Leisure” is all about, spend more time at our home in Phoenix, take more time to enjoy our 4 grandchildren, travel more with my husband whenever we choose (not bound by a school schedule).

Ron Halpern

### **Career background:**

Ron has spent 24 years in District 211. He has taught general studies special ed. classes - Health, General Science, History, English, Math. He was the head boys tennis coach for 17 years, the head bowling coach for 5 years, assistant boys tennis, girls tennis and bowling.

### **A highlight:**

Getting hired in 211. I was offered a job at Fremd and Hoffman. I chose Hoffman after sitting in the teacher's lounge in each school. Hoffman has an outstanding staff.

### **Miss the most?**

The daily highs of working with students. Every day was different but some of the relationships will last a lifetime.

### **Miss the least?**

The drive to school. Driving on Route 53 and I90 to get here was a daily challenge.

### **Words of wisdom:**

A well-prepared lesson plan reduces behavioral problems. Plan bell to bell.

### **Retirement plans:**

Biking, hiking, bowling, tennis, fishing, Rving, star gazing, dinosaur bone hunting, taking classes, teaching classes. Stay healthy and continue to grow and learn. Experience all those things I did not have money and time for in my first 55 years.

David Alex

### **Career background:**

David started his teaching career at Conant in 1968 A.C.E. Since he has a major in mathematics and English, he eventually taught a “pre-general studies program” English class in addition to the traditional math courses and was the sophomore then varsity Tennis coach. When HEHS opened in 1973, he taught General Studies Math and English for 2 years before transferring to the math department. He coached boys track (since 1973) and directed the fall play (6 years). He also served in the Peace Corps from 1971-1973.

### **A highlight:**

Teaching was always a career, not simply a job. I had the opportunity to teach all levels of students. Alumni who were enrolled in the original Math/English gifted class I taught with Frank Hill return to say they remember it as the most meaningful educational experience of HEHS. The thrill of coaching all state athletes and a state champion is still exhilarating. And “There’s no business like show business”; - directing the fall play was an expected opportunity to grow and learn. It was rewarding and exciting. However, the ultimate highlight was being part of District 211, a district that allowed me to have a career.

### **Miss the most?**

I will miss watching boys and girls develop into men and women, underachieving students discovering the love of learning, cheering for a slow, uncoordinated runner as he gains self-confidence and becomes an athlete, encouraging the talented students and athletes to reach a higher level of excellence.

### **Miss the least?**

Meetings.

### **Words of wisdom:**

Always remember that students are people; they have feelings, aspirations, and lead complex lives. Treat them as you want your children to be treated. Although you may be tempted or coerced, never abandon your ideals and principles or lower your standards. You owe that to the students. It will also enable you to hold your head up high and have the respect of those whom you respect.

### **Retirement plans:**

As of now, I am only able to see about 130 plays a year. With all of the extra time, I will be able to attend many more. There will also be more time for writing as well as for reading. Since I still enjoy teaching, I will substitute occasionally at HEHS and will teach an adult education course on playwriting. I will still run everyday and hopefully will not find the time to clean out my basement. I look forward to watching the boys cross country team run in next year’s state meet. And most important, I hope to live up to the ideals I learned from my parents and be a devoted husband, loving parent and spoiling grandfather – though in the very distant future.

Chuck Hanna

**Career background:**

Chuck has taught in District 211 for 27 years.

**A highlight:**

Too numerous to list.

**Miss the most?**

Interaction with colleagues and students.

**Miss the least?**

The 5:30 a.m. alarm clock.

**Retirement plans:**

Go home, mow the lawn, and take a nap.

Larry Nienhouse

**Career background:**

Larry has been with District 211 in the Math Department for 31 years both at Conant and Hoffman. He has sponsored the Math Team and coached golf.

**A highlight:**

Installation of toilets that flush.

**Miss the most?**

The people (most of the people).

**Miss the least?**

The toilet paper.

**Words of wisdom:**

Enjoy the relationships - bring your own toilet paper.

**Retirement plans:**

Tennis, golf, travel (Antarctica), naps.

Jay Fox

### Career background:

Jay has taught for 35 years in District 211 (24 at Conant, 11 at Hoffman). He has produced 22 yearbooks, 5 literary magazines, 3 homecomings as Student Council Assistant and was the Tech Director at CHS for 2 years. He has taught E101, 102, 108, 202,302, 308, 402, 404, 405, 301, 336 and 419!

### A highlight:

A list of highlights include: "Master Educator" Award at CHS, Graduation Speaker, NHS Speaker at CHS, M.C. "Mr. Hoffman Hawk", Honor Guard HEHS NHS, Guest at Scholar's Recognition Dinner, Coca-Cola Educator of the Month, Governor's Letter of Recognition for Tapestry, Conant's Literary Magazine, 2000 Halcyon, 1<sup>st</sup> Place with Special Merit, letters and visits from former students - some of my editors and photo-editors have done especially well. Teaching students of former students, the annual current vs. former yearbook staff combination Christmas pizza party and Trivial Pursuit match.

### Miss the most?

Hoffman is a very staff-friendly building. I really felt like I was a part of this place. In my department, I was encouraged to try new ideas and "make no little plans." I will miss their collegiality.

### Miss the least?

Nada.

### Words of Wisdom:

Eat more fiber.

Chris Starzynski

**Career background:**

Chris spent 23 years in District 211 and 9 years at Des Plaines Elementary School teaching Spanish. She has sponsored PALS, HOPE, and SCAT.

**A highlight:**

Working with so many hardworking and dedicated teachers, trips to Spain, Costa Rica and Mexico with students, my volunteering activities in the community, winning the Kohl Award and Volunteer Awards.

**Miss the most?**

The wonderful staff and students.

**Miss the least?**

The grading.

**Words of wisdom:**

Get involved! Be interested in the success of "all" students.

**Retirement plans:**

Travel to Costa Rica in August to do Habitat for Humanity. College teaching?? Who knows.

**Jill Wood-Naatz**

**Career background:**

Jill's entire teaching career has been with District 211 beginning in 1972. She spent her first 9 years at SHS teaching French. She resigned in 1981 and then came to HEHS where she has been both guidance counselor and French teacher. She has sponsored or co-sponsored French Club and French Exchange for most of those years.

**A highlight:**

It has been exciting to take students on spring and summer trips to France, Québec and Martinique. It is also fulfilling to know that many of my students continued to study French and even to become French teachers.

**Miss the most?**

What I will miss most is time spent with students in and out of the classroom. That interaction is stimulating and refreshing (most of the time). My colleagues over the years have been very supportive and I will miss those daily relationships.

**Miss the least?**

As I have "matured", rising at 5:30 a.m. has become more and more difficult. Grading papers year after year has also lost its appeal (not that grading was ever terribly appealing).

**Words of wisdom:**

It's more important to teach "students" than to teach "French". Students need some TLC first and then I hope they learn some French as well. Humor in the classroom is critical. We teachers must be able to laugh at ourselves from time to time. We must also be willing to say "I'm sorry. I made a mistake" to our students when it is appropriate. It's been a wonderful career!

**Retirement Plans:**

We have no plans to move from the Chicago area. However, to go south in mid-winter is a rather enticing prospect! I want to work at something - perhaps in the fitness field to help keep us baby boomers healthy. My other interests include singing, theater, gardening, church work and other volunteer opportunities and travel. In September we will actually be cruising the Mediterranean. And of course I hope to spend more time with grandchildren.

Teri Hornsby

**Career background:**

Teri spent 15 years in the cafeteria, 3 years at Conant and 12 years at HEHS. She then spent 5 years as a T.A. in Special Ed. She was also involved with the fall play for 3 years, the musical and spring play for 4 years doing costumes.

**A highlight:**

Receiving the Golden Hawk. Becoming the first T.A. for building and trades and working under Randy Stennett. Working with Judy Kating in costume. Doing costume for all the plays and working with the director was a blast.

**Miss the most?**

The kids and all my friends.

**Miss the least?**

The kids.

**Words of wisdom:**

RUN - No, just have fun with the kids and remember to care about what you are doing.

**Retirement plans:**

Taking care of my grandson Carver and all the other grandbabies that come along.

Jean Praszewicz

### **Career background:**

Jean started her District 211 career at Fremd. She was a student supervisor in the cafeteria. The 10 a.m. – 2 p.m. schedule fit well, as she was able to get her children off to school and be there when they returned. She worked there 7 years and then transferred to Hoffman. It was closer to home and all four of her boys graduated from Hoffman. The first 10 years were spent in girls PE. After that she worked as a hall supervisor.

### **A highlight:**

Working with the kids and getting to know them on a one-to-one basis.

### **Miss the most?**

The wonderful teachers, supervisors and support staff.

### **Miss the least?**

Working in the cafeteria and the center hallway because you sit in one spot all day.

### **Words of wisdom:**

Respect the kids, be their friend but not to the point where they take advantage of you. Always maintain discipline. It prevents things from getting out of hand.

### **Retirement plans:**

I guess for now, doing what I want to do, when I want to do it.

**Shirley Schmit**

**Career background:**

Shirley served the district as assistant and head cook at Schaumburg and as assistant manager at Conant and Hoffman. She has worked in Food Service since 1985.

**A highlight?**

Retirement.

**Miss the most?**

Shirley said that she will miss interaction with staff members and students.

**Miss the least?**

Getting up early in the morning!

**Words of wisdom:**

Just do your job the best you can.

**Retirement plans:**

Being with my grandchildren and children, meeting new people at Del Web in Huntley and having a good life - caring about people.

### **Career background:**

Randy started at Schaumburg High in 1970 and Hoffman in 1974. He has taught Applied Technology and was Assistant Coach for Basketball and Football and volunteered time and effort to help students construct play sets.

### **A highlight:**

I was instrumental in the growth and success of the Building Construction program. I started the program in 1975 and helped many students get into the building trades.

### **Miss the most?**

Taking the tough kids and motivating them to build a house as a team. These are the kids that my colleagues have found difficult to work with at the high school.

### **Miss the least?**

Starting my day at 6:00 a.m. and driving the school truck to the job site.

### **Words of wisdom:**

Have a great appreciation for your subject matter and teach with excitement and have fun!

### **Retirement plans:**

Ruth and I will just enjoy our retirement along with our grandkids. Who needs to work! K-Mart is not in my future.

**Randy Stennett**

George Stewart

### **Career background:**

George gave 33 years of service: Conant 1 year, Schaumburg 24 years and Hoffman 8 1/2 years. He sponsored Student Council, National Honor Society, Debate, coached football, was department chairman and served 4 terms as Teachers Union President. He taught Macroeconomics, US Government and Politics, American Studies, American History and Social Science Survey.

### **A highlight:**

Enjoying teaching for 33 years, serving as the social studies chairperson at HEHS, selected for a three week fellowship to study in Japan, and being recognized by the University of Chicago in 1993 and 2000 for my teaching in Economics.

### **Miss the most?**

The students are a given - it's the teachers, staff and administrators - the stories, laughter and professional sharing.

### **Miss the least?**

Taking voice mail messages for all the department members on that ridiculous voice mail system.

### **Words of wisdom:**

Change what you are teaching or coaching or activity you are involved in every seven to eight years to keep from having burnout.

### **Retirement plans:**

Teaching Economics part time at a Catholic High School, golf and traveling with my wife.
